European Convention on Human Rights – Article 10 – Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises. 2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in

its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.

In 1989, when the Cold War ended, there were six permanent international courts. Today there are more than two dozen that have collectively issued over thirty-seven thousand binding legal rulings. *The New Terrain of International Law* charts the developments and trends in the creation and role of international courts, and explains how the delegation of authority to international judicial institutions influences global and domestic politics. *The New Terrain of International Law* presents an in-depth look at the scope and powers of international courts operating around the world. Focusing on dispute resolution, enforcement, administrative review, and constitutional review, Karen Alter argues that international courts alter politics by

providing legal, symbolic, and leverage resources that shift the political balance in favor of domestic and international actors who prefer policies more consistent with international law objectives. International courts name violations of the law and perhaps specify remedies. Alter explains how this limited power--the power to speak the law--translates into political influence, and she considers eighteen case studies, showing how international courts change state behavior. The case studies, spanning issue areas and regions of the world, collectively elucidate the political factors that often intervene to limit whether or not international courts are invoked and whether international judges dare to demand significant changes in state practices. In his usual down-to-earth teaching style, Praying Medic clearly explains what the courts of heaven are, why we may want to appear in them and how to present our case. Even the least experienced believer will be able to boldly go before the court of heaven and obtain victory after they read the Bible-based teaching, and testimonies provided in this book.

Why do some people pray in agreement with God's will, heart and timing, yet the desired answers do not come? Why would God not respond when we pray from the earnestness of our hearts? What is the problem, or better yet,

La Cour européenne des Droits de l'Homme a toujours affirmé le rôle essentiel de la liberté d'expression dans une société démocratique. Sa garantie et son respect favorisent le développement d'une société ouverte, tolérante et respectueuse des droits de l'homme. Pourtant, la liberté d'expression n'est pas une liberté absolue ; certaines limites s'imposent à son exercice. De quelle façon combattre le discours raciste et xénophobe tout en respectant la liberté d'expression de chaque individu ? Comment préserver la présomption d'innocence sans restreindre le droit du public à être informé ? Où se situe la limite acceptable de la critique des hommes politiques dans les médias ? Ce dossier présente les réponses que la Cour a apportées à ces questions au long de quelque cinquante ans de jurisprudence relative à l'article 10 de la

Convention européenne des Droits de l'Homme. Angels Are Waiting For You More and more believers are appearing in the courts of heaven. The EEA Agreement extends the free movement of persons, goods, services and capital to the EEA/EFTA States: Iceland, Liechtenstein and Norway. It provides for equal conditions of competition and abolishes discrimination on grounds of nationality in all 31 EEA States. The successful operation of the EEA depends

upon a two-pillar system of supervision involving the European Commission and the EFTA Surveillance Authority. A two-pillar structure has also been established in respect of judicial control with the EFTA Court operating in parallel to the Court of Justice of the European Union. The EFTA Court, which celebrates its 20th anniversary in 2014, has jurisdiction with regard to EFTA States which are parties to the EEA Agreement. The jurisdiction of the EFTA Court accordingly corresponds to the jurisdiction of the Court of Justice of the European Union over EU Member States in matters of EEA law. The essays in this collection, assembled to celebrate the 20 year landmark, and written by members of the Court and external experts, review the successes and shortcomings of the Court, its interface with EU law, and the prospects for its future development.

Discover Prayer as a Supernatural Portal to Spiritual Dimensions! Many believers' prayers go unanswered because they never fully enter the spiritual realms that their prayers open up! Apostolic leader and author, Robert Henderson, is world-renowned for his bestselling series on The Courts of Heaven. In this new work on prayer, Robert provides Biblical strategies for every believer to unleash the full power of their prayers, and see them answered! God gave us prayer as more than a religious ritual. In fact, prayer is a supernatural portal through which we encounter God in multiple spiritual dimensions! In the Gospels, Jesus presented three different dimensions of prayer. Each one is connected to a specific identity of God: Father: We encounter God the Father in the Secret Place and Throne of Grace. Friend: We take our place as Friends of God when we operate as intercessors. Judge: We come before the Judge when we are dealing with an adversary who resists our breakthrough. When Christians learn how to operate in each of these spiritual dimensions, they can align their prayers with God's will, and release His power for miraculous results!

This book critically evaluates different models of judicial leadership in Indonesia to examine the impact that

individual chief justices can have on the development of constitutional courts. It explores the importance of this leadership as a factor explaining the dynamic of judicial power. Drawing on an Aristotelean model of heroism and the established idea of judicial heroes to explore the types of leadership that judges can exercise, it illustrates how Indonesia's recent experience offers a stark contrast between the different models. First, a prudential-minimalist heroic chief justice who knows how to enhance the Court's authority while fortifying the Court's status by playing a minimalist role in policy areas. Second, a bold and aggressive heroic chief justice, employing an ambitious constitutional interpretation. The third model is a soldier-type chief justice, who portrays himself as a subordinate of the Executive and Legislature. Contrary perhaps to expectations, the book's findings show a more cautious initial approach to be the most effective. The experience of Indonesia clearly illustrates the importance of heroic judicial leadership and how the approach chosen by a court can have serious consequences for its success. This book will be a valuable resource for those interested in the law and politics of Indonesia, comparative constitutional law, and comparative judicial politics.

Some recent contentious issues about the use of evidence in cases before the International Court of Justice have highlighted the importance of fact-finding and the use of evidence before this Court. This major study on the issue of evidence before the International Court of Justice has examined all aspects of the Court's relationship with facts in both contentious and advisory proceedings from the recently refined procedure for submitting late evidence, to the hearing of live witness testimony in the Peace Palace. Considerations of flexibility and respect for the sovereignty of the State Parties before the Court have traditionally deterred the Court from constructing concrete rules on matters of evidence, but the increasing numbers of cases, in which a thorough consideration of the facts has been essential, has highlighted that some detailed procedural guidance is necessary in order to ensure a well-functioning system of adjudication. It is apparent that the Court has paid an incre

This book predicts the decline of today's professions and introduces the people and systems that will replace them. In an internet-enhanced society, according to Richard Susskind and Daniel Susskind, we will neither need nor want doctors, teachers, accountants, architects, the clergy, consultants, lawyers, and many others, to work as they did in the 20th century. The Future of the Professions explains how increasingly capable technologies - from telepresence to artificial intelligence - will place the 'practical expertise' of the finest specialists at the fingertips of everyone, often at no or low cost and without face-to-face interaction. The authors challenge the 'grand bargain' - the arrangement that grants various monopolies to today's professionals. They argue that our current professions are antiquated, opaque and no longer affordable, and that the expertise of their best is enjoyed only by a few. In their place, they propose five new models for producing and distributing expertise in society. The book raises profound policy issues, not least about employment (they envisage a new generation of 'open-collared workers') and about control over online expertise (they warn of new 'gatekeepers') - in an era when machines

become more capable than human beings at most tasks. Based on the authors' in-depth research of more than a dozen professions, and illustrated by numerous examples from each, this is the first book to assess and question the future of the professions in the 21st century.
